MARKET INACTIVE, WAIT FOR DIVIDEND

Directors of Amalgamated Refuse to Give Out Any Information.

NEW YORK, Oct. 18.-The' stock market opened irregular, with a majority of declines. Amalgamated gained % in all, Colorado Fuel improved %. St. Paul, %, and Pressed Steel Car, %. Anaconda lost 2 per cent in all; Erie, Union Pacific, and Steel com-mon lost 1/4; Reading and Car Foundry, 4. and Canadian Pacific %

Trading all through the first hour was without feature. The only stock in which there was any movement worth noting was in Amalgamated, which ranged from 114 to 116½. All kinds of guesses were made as to action of the directors on the dividend, but it was impossible to obtain any information as to what their action would be.

The rest of the market to a great extent was influenced by the uncertainty over the Amalgamated dividend, but traders generally took the bear side.

Government bonds were unchanged; Manh. Elev other bonds quiet and firm. The market after the first hour con-

thued to wait for action on the Amalgemated dividend. The stock continued to range between 115 and 116 with most of the sales above 115½. A switching of position of some of the traders caused fractional rallies in a number of stocks.

National Biscuit interests say the management will strongly oppose any proposition to increase the dividend at this time.

It is estimated that the gross earnings of the United Railways and Electric Company, of Baltimore, for the present year will not be less than \$6,700,000.

A meeting of the Chicago board of trade members is called for today to discuss the unparalleled dullness of the local grain market, and produces a remedy if possible.

At the annual meeting of the Mergenthaler Linotype Company, Albert H. Sawyor was elected a director to succeed George L. Bradley, deceased. Other directors were re-elected.

A. J. Cassatt, president of the Pennsylvania, has recovered his health sufficiently to resume the active discharge of his official duties. He was at his desk yesterday for the first time since last June.

T. P. Shonts, chairman of the Isthmian Canal Commission, and president of the Clover Leaf road, was in Chicago today. He says he has several tentative proposals for the purchase of the road, but mothing is near completion.

merous reasons for this. To begin with, the point of view of the successful speculator and that of the public trader are entirely different. The first named operates on deductions, on carefully erected theories of what conditions will be a year—two years hence; the unsophisticated trader acts upon whatever of the futre is already apparent. It is again a platitude to say that wall again at the following platitude to the platit

NEW YORK, Oct. 18.—In spite of poor cables from the market at Liverpool, the local cotton market opened steady, unchanged to 8 points higher. The steadiness was due to unfavorable weather in the South. Off the southern end of Florida was an area of low pressure, suggesting further rains in the Eastern belt, while in the Rocky mountains an area of high pressure indicated lower temperatures for the Western belt.

the drop in trading in the short space of three days. And yet that is the history of the Washington Stock Exchange transactions during the current week. The opening day looked like a resumption of active business, and everybody was feeling happy in consequence. Today the market was absolutely without feature, if an exception can be made in some unusual deals in Norfolk and Washington Steamboat stock.

The rise on Mergenthaler was checked after some few belated buyers had been supplied at 207, and the boom started in Mitchell Mining in the early days of the week petered out to one trade in 100 shares, Railroads were given languid attention, while Gas and several others of the leading issues were entirely neglected.

For the first time in many months a trade was recorded in ten shares of Columbia National Bank stock and one lot of ten shares of Union Trust at 15½ marked a loss over the high prices recently established.
